

NEWS RELEASE

DocuSign Applauds Legal Professionals Going Digital in Recognition of National E-SIGN Day

2015-06-30

SAN FRANCISCO, June 30, 2015 /PRNewswire/ -- General Counsels and Legal Departments are at the heart of every business negotiation, contract and deal. GCs sit in a position to accelerate the pace of business and enable organizational success as a driver of compliant and profitable all digital business practices. In recognition of the 15th anniversary of **National E-SIGN Day**, DocuSign, Inc. (DocuSign®) is offering a complimentary webinar, **Amp Your Legal NPS: Move From Bottleneck to Enabler to Drive Internal Client Satisfaction with DocuSign** General Counsel Reggie Davis on July 29, 2015. GCs and legal professionals looking to drive business transformation across their organizations may register for the webinar at <https://www.docuSign.com/webinars/amp-your-legal-nps>.

"Today's GCs have a critical role to play in leading their organizations as a digital change agent," said Davis. "We have a clear opportunity to cast our leadership shadow throughout our organizations to accelerate the pace of business, reduce cost, and enhance compliance – all while delighting our internal clients."

National E-SIGN Day was designated by the U.S. Congress on June 30, 2010, following President Clinton signing into law the Electronic Signatures in Global and National Commerce (E-SIGN) Act on June 30, 2000. The E-SIGN Act created a vast opportunity for companies to benefit from the speed, security and convenience of electronic signatures like **UpShot Services LLC**, a company that specializes in acting as an agent of the Court in Chapter 11 Bankruptcy proceedings. Co-founder Robert Klamser noted: "eSignature naturally resonated with my partner, a former bankruptcy lawyer. In a paper-laden practice within the legal industry, we knew it was vital to digitize the Chapter 11 space by partnering with DocuSign, the global standard in Digital Transaction Management. Our business model is now tailored to the new digital future of claims management – making us more efficient and better able to service our stakeholders."

DocuSign meets all the requirements of the Federal E-SIGN Act to give customers assurance that transactions completed on The DocuSign Global Trust Network are safe, secure and legally enforceable – even more so than if they were signed with paper and pen as all completed transactions include a legally binding audit trail. The Federal E-SIGN Act covers contract types of all kinds including arbitration, life and auto insurance, securities, and more.

DocuSign's DTM platform offer lawyers and their executive counterparts an easier, faster, more convenient and secure way to transact business. The webinar will explore how GCs can leverage DTM in their business. Topics will include:

- The Uniform Electronic Transactions Act (UETA) of 1999 and The Electronic Signatures in Global and National Commerce Act (ESIGN) of 2000
- General Rule of Validity
- What is an Electronic Signature?
- Evidence and Case Law (5 Cases)
- Regulatory Developments including FRB and CFPB and the meaning of "Provide," One-Offs, Mobile Devices and Mobile Privacy, FTC Updated Dot Com Disclosures, and Accessibility
- How GCs can serve as digital champions to accelerate the pace of business and enable organizational success via compliant and profitable all digital business practices

GCs and legal professionals looking to drive business transformation across their organizations may register for the webinar at <https://www.docusign.com/webinars/amp-your-legal-nps>.
