

NEWS RELEASE

## DocuSign Awarded 'Best Enterprise API'

2016-09-13

SAN FRANCISCO and SAN JOSE, Calif., Sept. 13, 2016 /PRNewswire/ -- API WORLD -- DocuSign announced today that it has been awarded Best Enterprise API at API World. **DocuSign's Signature API (Application Programming Interface)** was recognized as best-in-class for its ease of use, extensibility, flexibility, openness and speed of deployment.

"The DocuSign Signature API is a great example of how more and more of the tech industry are realizing that APIs are not just how we integrate tools and apps; APIs are the new way of doing business and building new revolutionary technologies," said Geoff Domoracki, founder of API World.

"We're thrilled to be recognized by API World for the richness and robustness of the DocuSign API," said Marie Huwe, VP of developer marketing, DocuSign. "The Enterprise API award is a testament to the impact developers are achieving within their businesses by integrating DocuSign's eSignature and DTM capabilities to automate and streamline manual, paper-based processes and workflows. Developers using DocuSign have become digital heroes within their businesses."

With more than 250,000 companies and 100 million users across 188 countries, the DocuSign Global Trust Network has seen 100%+ year over year growth in customers and users – much of which has been driven by the developer community. Developers across nearly every industry are integrating the DocuSign API to help their organizations transform into fully digital businesses. Companies like **Cisco**, **Comcast**, Liberty Tax, Restaurant Services Inc. and TIAA-CREF are among the more than 30,000 developer sandboxes open on the company's **Digital Transaction Management (DTM)** platform, leveraging DocuSign to accelerate speed to results, increase security and compliance, and create a great customer experience.

In the first two quarters of DocuSign's fiscal year starting February 1, new API integrations with the company's

**eSignature service** drove 300% growth of API transaction volume from new customers year over year. Today, 58% of transactions on the DocuSign Global Trust Network are processed via its API.

The DocuSign Signature API gives developers the flexibility and control to scale from simple, fast eSignature integrations all the way to fully featured enterprise applications. From Finance to Operations, Sales, Procurement, HR and Legal, the DocuSign API makes streamlining approvals, contracts and complex workflows simple and fast.

Announced at the API World 2016 Conference and Expo, the world's largest API conference with 3,000 attendees, the 2016 API Awards received hundreds of nominations. The API World advisory board selected winning APIs based on three criteria: reputation in the API industry, recent media coverage, and innovativeness of API initiatives. The 2016 API Awards are the API Industry's largest award event.
